EXECUTIVE FUNCTIONING & ADAPTIVE SKILLS TRAINING

Skills for Learning Skills for Life

Modern Class provides one-on-one Adaptive Skills Training (AST) delivered through our Executive Functioning program. Each plan is designed and led by degreed educators and is individualized to the client's goals, home, and daily routines.

AST + EXECUTIVE FUNCTIONING

Executive functioning is the engine behind adaptive skills: planning, self- regulation, working memory, and follow-through. We teach AST goals inside that framework so skills transfer from the session to real life.

- Individualized plan created based on the initial intake, observation, and family input
- Explicit instruction, modeling, and guided practice to build independence
- Measurable goals with ongoing progress reports
- Visual routines, checklists, and self-monitoring tools used at home and school
